## Acknowledgments

Industries are the backbone of an economy as the rate of economic growth of any nation is heavily depends upon its industrial development. Eventually, industries help to improve the living standards of the people creating employment sources and generating the national income by utilizing its natural resources. Therefore, information on the current state of the industrial activity is one of the most important ingredients of the process of policy decision making. In fact, the choice of the appropriate policy stance heavily relies on timely and reliable knowledge of what is happening.

Department of Industries (DOI) is a responsible government organization for the promotion of industries in Nepal, especially, for the development of medium and large scale industries. DOI also encourages Foreign Direct Investment (FDI) and administers their establishment in the country, and facilitates the entrepreneurs to register the Trademarks, Patent and Design to protect their Industrial Property right. Providing the credible information on industrial activities in the country is most essential to the potential investors to promote the overall industrial development. For this reason, DOI has been publishing “Industrial Statistics” for two decades mainly containing medium’ and ‘large’ scale industries.

On this occasion, I would like to request all the concerned industries to provide production data and other relevant information regularly on time. Despite many problems encountered during data compilation, we have tried our best to make it as accurate as possible. However, we would regret if any errors have still crept in. We feel that our effort would become successful if the data and information provided will be useful for entrepreneurs, researchers, planners and policymakers working in the field of industrial development in Nepal. Any comments and suggestions for the improvement of this publication will be sincerely acknowledged.

I would like to take this opportunity to express my sincere thanks to all industrial enterprises for providing information/data, without which this publication would be of little value. I am thankful to the directors at the DOI for their cooperation by providing the essential and useful suggestion to the publication. I would also like to commend the staffs of the Planning, Monitoring & Evaluation Section of the Department, especially, Director-Ramesh Ratna Sthapit and Statistician-Dr. Dilli Raj Aryal, for their sincerity and diligence in bringing out the present episode well in time. Last but not least, I would like to thank Mr. Surya Bahadur Khadka and Mr. Sunil Kumar K.C. supporting staffs of this section for their efforts during the compilation and processing of the data.

June, 2006

**Tana Gautam**  
**Director General**

## Abbreviations and Notes

DoInd.	:	Department of Industries
EIA	:	Environmental Impact Assessment
FNM	:	First Nine Months (Nepalese fiscal year)
